

## **Short Facebook Timeline posts**

### **What we need:**

- **Crispy text of maximum 300 characters (including blanks) so about 50-60 words.**
- **Image to post with (if the website we post does not have a preview image) > in this case we can use royalt-free Flickr images. (please do not rename downloaded flickr images and send us also the author of the images as we have to state them according to CC-attribution laws)**

**Please provide us with a wordfile of the content so we can put it online easily. Images can be pasted in this file or attached to the mail.**

## **Protecting our pavements**

The well-developed campaign in Ukraine and Russia to prevent cars parking on pavements, or indeed driving along them, using stickers which prevent drivers driving. Effective and empowering and visual. And simple, somehow.
